Western Canada's First Pet Crematorium and Funeral Chapel

Are we ready for cats in caskets? Headstones for hedgehogs? A local company is betting on it. Pet Heaven opened its doors in January as the only privately owned and operated, fully licensed and insured pet crematorium and funeral chapel in the Calgary area. With over 40 years of combined experience in the funeral industry, owners Arnold Paterson and Jaron Chasca provide full-service pet cremation, an onsite funeral chapel, home and veterinary removal as well as a large selection of pet caskets and urns.

"Our services are unique. Pets are no longer just pets; they are family members and deserve the same dignified memorial as any other member of the family," say Chasca. Pet Heaven offers a wide range of funeral options for every type of pet, including an open casket, and the chapel can comfortably accommodate up to 20 people.
